Education

- 2018 - **COPENHAGEN SCHOOL OF DESIGN AND TECHNOLOGY** *Multimedia Design and Communication*
- 2018 - 2018 **UNIVERSITY OF COPENHAGEN** *Advanced Migration Studies Master's*
Spent one semester at KU to deepen my knowledge in Social Sciences and get more familiar with the process and effects of migration.
- 2017 - 2018 **ANGELUSZ RÓBERT SOCIAL SCIENCES COLLEGE FOR ADVANCED STUDIES**
Advanced college offering extra-curricular courses and activities for talented students. During the last year of my Bachelor's studies I decided to join in a second advanced college because they offered a different way of thinking. This college was based on participatory democracy so its hierarchy was weaker than in my first college.
- 2015 - 2018 **EÖTVÖS LORÁND UNIVERSITY** *Sociology Bachelor's*
Specialized in Survey Statistics. I accomplished 243 credits instead of the required 180 credits. I wrote my thesis about the first generation intellectuals who attend a college for advanced studies. I interviewed people from advanced colleges, made the transcriptions and analysed them.
- 2015 - 2018 **EÖTVÖS JÓZSEF COLLEGE FOR ADVANCED STUDIES**
Advanced college offering extra-curricular courses and activities for talented students. Main activities included academic courses, organizing conferences and opportunity to publish articles. I was the member and later the vice-president of our Social Science group.
- 2011 - 2015 **HERMAN OTTÓ GIMNÁZIUM** *Specialized in German language*
5 Mature Exams, (Mathematics, Geography, German (Advanced), World History (Advanced), Hungarian Language and Literature)

Experience

- 2018 **HUNGARIAN ACADEMY OF SCIENCES** *Research intern*
Was a member of an international research group called RECENS (Research Center for Educational and Network Studies). The research I participated in was a social relations analysis about peer status and classroom seating arrangements. My tasks consist of coding surveys and building database from the variables.
- 2016 - 2018 **EÖTVÖS JÓZSEF COLLEGIUM** *Vice-president of the Social Sciences Group*
As a vice-president I had several administrative tasks. I organized classes for each semester related to Social Sciences. I was the contact person between professors and students.
- 2017 **NIGHT OF THE COLLEGE** *Conference organizer*
Was the head of our organizer group at Angelusz Róbert College for Advanced Studies. "Night of the College" is a special conference that is organized in every November. It takes place at the Eötvös Loránd University in the evening. I was responsible for dividing the tasks, managing people, transacting round-tables etc.

- 2017 **EÖTVÖS CONFERENCE** *Head of the Social Sciences section*
Was the organizer and the head of the Social Sciences section at our college conference. I was responsible for finding the proper judges and get in touch with them. I was also the master of ceremonies in the Social Sciences section.
- 2016 - 2017 **EÖTVÖS JÓZSEF COLLEGIUM** *President of the Communication Board*
I was member of the College's Student Council and the president of its Communication Board. I was responsible for editing the newsletter of our college and dividing tasks between board member. I managed our Facebook site and made posters for the college's events.
- 2016 **HAKÖSZ - STUDENTS IN COMMUNITY SERVICE** *Volunteer work*
Served meals for the homeless for a shorter period.

Competitions

- 2018 **LAUZHACK** *International 24-hour Developer Competition*
Took part in this hackathon in Lausanne, Switzerland. With my team we developed a bot which was able to trade bitcoin through an API provided by Swissquote. We used python and implemented different models for predicting the future trends in bitcoin's price.
- 2018 **FOODTECH CHALLENGE** *Student Competition*
Was selected from 600 people to this hackathon in Herning, Denmark. I worked on the challenge of Arla Foods during four days with a team of interdisciplinary students from different countries. The aim of our project was to create a movement that will form a strong community where Arla Farmers and consumers are joined together. We collaborated during the process with Head of Farmers and Consumers Program from Arla and other experts from different areas.
- 2018 **CHALLENGE.ON** *National 24-hour Competition*
Worked on the idea of an application that gives advice how to reduce the energy usage in our homes. At the end of each month it shows our saving. The user can offer their saving for needy families or NGOs, through their electricity supplier. Achieved **1st place** with my partner.
